

Green Cart Compost

Compost Tips

- Store your Compost Cart out of direct sunlight.
- Wrap food waste in newspaper, brown paper bags, or special compostable bags.
- Add baking soda, garden lime, or yard clippings to help absorb odours.

Please remember...

- Greasy or soiled cardboard and paper can be composted. Clean, dry cardboard and paper belong in the blue bins at your local Recycling Depot.
- Please no plastic bags in the Compost Cart. Special compostable bags accepted only.
- Carts hold a maximum of 50 kg or 100 lbs.

Residents can divert one-third of their household waste by composting.
